Our Boys and Girls

Hair dressing time and bath time are the most difficult times for both the mother and her little girl. Certain it is that the nerves of each are usually worn to a thread when these distressing periods are over.
There are some girls, however, that these times go through pleasantly because the mother makes them happy and interesting for her. On her birthday she received as a present a pretty little cut glass atomizer filled with a sweet but not too heavy toilet water.
She was told that if she would go through the hair dressing treatment with patience and sweetness, she was told that she could have some of the contents of the bottle sprayed on her tresses. The ruse worked like a charm for the little girl found there was no sweetness for her hair on the days when she fretted and sulked and scolded at hair dressing time.

Yet must we part, and, parting weep;
What else hath earth for us in store?
These farewell pangs, how sharp and deep!
These farewell words, how sad and sore!
Yet we shall meet again in peace,
To sing the song of festal joy;
Where none shall bid our gladness cease,
And none our fellowship destroy.
There hand in hand, firm linked, we last,
And heart to heart, entwined all;
We'll smile upon the troubled past,
And wonder why we wept at all.

Card-Of Thanks.
As it is impossible to clasp each one by the hand, and thank them, we take this method to express our sincere thanks to all our relatives and friends for their kind and loving help and sympathy extended to us during the death and burial of our Husband, Father and Brother, and for the beautiful floral offerings, also to the members of the U. Milady's Boudoir

The Unconfined Waistline.
When a woman is past first youth she should not leave the waistline be unconfined or she will have a hard time stopping its growth. Fatly tissues settle very rapidly about the waist that is not reinforced with firm muscles and, since waist muscles are rarely used after youthful and athletic days, fat has every opportunity to grow where it is least restricted.
Many women stand erect for 20 minutes after eating, hearing that this will prevent the waist from growing larger, but mere standing will do no good unless one stands correctly. The whole action of right standing or sitting is in the keeping of the waist muscles taut and not relaxed. This means the holding up of the upper part of the figure, away from the bones of the pelvis and not to allow it to settle down comfortably with relaxed spine.
Always feel that your figure, from the waist line up, is unsupported by your corset. Always hold it erect by the aid of the spine and waist muscles. You will then find your waist growing slender and longer in line. It is the short waisted woman who settles down into her corset when she sits or stands.
The kneeling exercise is excellent for improving the waistline, which will certainly grow more slender and more flexible if the exercise is persisted in ten or more times a day. Kneel on a rug and slowly bend downward from the waist until the forearms and hands rest on the floor. Then slowly regain an upright position, letting all the strain come on the waist muscles. This exercise should be done slowly to get the best effect. Do not spring up, allowing the muscles of the back to help you, but make the waist muscles slowly pull the body upward.
The coal dealer may figure his profits with a fountain pen, but a slate pencil would do just as well.
Would you say a man is an extremist when he comes down flat footed and is also level headed?

AND HE DID!

WILL HARDING REVIVE THE TENNIS CABINET?

The White House tennis grounds being made ready by workmen, and picture of President-elect Harding at tennis.

Complying with an informal request from President-elect Harding's secretary, workmen at the White House are repairing and resurfacing the tennis grounds, which have fallen into

disuse the last few years. During the Roosevelt administration Roosevelt spent much of his recreation time on the court and the prominent men with whom he played became known as his

"tennis cabinet." Harding is an enthusiastic tennis player as well as a golf player, and it appears, intends to make use of the court again. The photo shows the White House in the background.

UNFILLED STEEL ORDERS REACH NEW LOW MARK

New York, Jan. 11.—The monthly tonnage report of the United States Steel Corporation made public yesterday showed a record low of 1,125,000 tons of unfilled orders on hand December 31. This is a decrease from 1,221,481 tons, which reached 9,221,481 tons. This is the largest decrease reported in any month since the reaction began in August last and reduces unfilled orders of the corporation to the smallest total since November, 1919, when unfilled orders totaled 7,125,000 tons.

TAG DAYS RAISE MONEY. Berlin.—"Tag days" have been instituted in Berlin and other cities to raise money for the relief of children and indigent mothers, of whom it is said the American Friends Service committee Quakers alone are feeding 694,000 daily. Desertions in the American army now average 1.31 per cent., as compared with a pre-war average of 4 per cent.

NAMES WILLIS AS FIRST ACT

Davis Appoints Senator to Fill Six Weeks of Unexpired Term of President Elect Harding.

Columbus, Jan. 11.—Appointment of former Governor Frank B. Willis of Delaware as United States senator to fill the unexpired term of President-elect Warren G. Harding was the first official act of Governor Harry L. Davis following his inauguration as governor at noon yesterday.

Mr. Willis was present at the inaugural ceremonies and was tendered his commission in the governor's office immediately following the inaugural ceremonies. He becomes senator at once and will go to Washington to be sworn in as Senator Harding's successor. Senator Willis begins the term for which

he was elected last November on March 4.

As received by Governor Davis, Senator Harding's resignation was effective yesterday, instead of January 15 as stated in Marion notices.

Senator Willis announced that C. A. Jones of Columbus, who was publicly director of the recent Republican campaign in Ohio would be his private secretary. Miss Margaret C. Rowley of Galien will be his stenographer and Ralph Dadds will act as his clerk.

Senator Willis will go to Washington Wednesday, but said he may not be sworn in until next Monday.

No, Maude dear: we have never heard that Cork has a greater floating population than Venice.
After all it is much easier to take things as they come than to say good by when they go.

GREEK REFUGEES ARE IN DISTRESS
Near East Relief Worker Says Six Thousand Live In Dens Like Animals at Batumi.

New York.—Six thousand Greek refugees at Batumi, Transcaucasia, their clothing worn to shreds are "living like wild animals in dens" and dying at the rate of from 35 to 50 a day, writes Dr. W. E. Rambo, Near East Relief worker, of West Philadelphia, Pa., in a report from the Black Sea port received here.

In what he calls "a tragic exodus that bids to become historic," Dr. Rambo says the Greek government already has repatriated 20,000 who emigrated from the near east to escape Thrace and that from 10,000 to 12,000 remain to be transported from Batumi back to their homeland. Most of these, he says, are physically strong but 6,000 refugees from other regions who flocked to Batumi in the expectation of relief have been in that city five months, waiting in vain for help, their condition daily becoming more desperate on account of the rigors of the present Georgian winter.

The Greek government, Dr. Rambo explains, responsibility for the plight of the people, has undertaken through humane considerations only to feed and doctor the refugees but, so far, has declined to transport them to Greece on the ground that there is insufficient housing there to shelter them.

"Meanwhile," the letter says, "the 6,000 are overcrowded in barracks until they have no privacy. Some are lying in bed day and night because they have no clothing to protect them from the cold or cover their nakedness. Unless speedy relief comes to these people most of them will die during the winter. Already the remnants of the original refugees are in despair. One of them says to me: 'We are no longer waiting for ships; we are waiting for death.'"

Of 5,767 in this party in the beginning only about 2,400 remain—3,367 are dead. Another party of 6,800 has 2,600 survivors—4,000 are dead. Of the survivors 700 are ill.

ENGLISH WOMEN SEEK FRIENDSHIP WITH U. S.

London.—With the object of promoting closer friendly intercourse between British and American women, a women's committee of the English Speaking Union has been formed under the presidency of Viscountess Bryce, wife of the one-time ambassador to the United States.

Arrangements are being made to provide hospitality and entertainment for American women visiting England, and to co-operate with corresponding committees in the United States in linking up women's various spheres of activity on both sides of the Atlantic.

The president of the United States of the English Speaking Union, Mrs. William H. Taft, the new women's committee has among its members Lady Violet Astor, Viscountess Gladstone, the Countess of Kerry, the Countess of Reading, and a host of other women prominent in London society.

One of the most futile things in the world is a heated argument with the janitor under the impression that it is going to warm up the radiators.

NEWSPAPER TELLS HOW BOY WAS SAVED FROM LUNG TROUBLE

Read what the Altoona Times-Tribune says about the case of Paul McCartney. Reporter interviewed his parents and saw the boy.

The story shown below is a news article, not advertising.

Altoona (Pa.) Times-Tribune, March 26, 1920

HEALTH COMES TO LAD THROUGH ADVERTISING

Despairing Parents, As the Last Resort, Choose Remedy Heard of Through This Newspaper—Boy Is Now Well and Robust

It would hardly occur to you that a miracle could be worked through advertising—one that saved to doing parents the life of their only son? Strange as it may seem, that is just exactly what has been accomplished in a specific instance right here in Altoona. We all have heard volumes about the value of advertising, but that the great results achieved by it should save lives are the facts in the case.

Paul McCartney, son of Mr. and Mrs. Sheldon McCartney, residing at 2222 Walnut avenue, this city, and who on October 10 last, celebrated the 14th anniversary of his birthday, took sick July, 1918, his illness rapidly assuming such a critical aspect that his life was despaired of. The parents in their frantic efforts to save his life, called in different medical practitioners and at different times had him admitted to both city hospitals.

DIAGNOSED TUBERCULOSIS
The malady was diagnosed by the physicians as tuberculosis and it was suggested that the parents keep the boy out of doors, day and night and feed him entirely on a milk and egg diet. In compliance, the parents had an army cot placed on the back porch, had it properly screened and there, the sufferer reduced to a mere skeleton, lay day and night, his life ebbing.

From August 1 until October the patient was unable to take nourishment of any kind except in occasional instances of quinine sufficient to sustain the waning life. The stomach would not retain the food.

Finally, the attending physician told the despairing mother that he could do nothing more that the child must die. Fortunately Mrs. McCartney's father, A. T. Rigg, residing at 2225 Pine avenue, brought to his daughter a copy of the Altoona Times, containing an advertisement of McKesson's "Nature's Remedy" prepared and sold by The McKesson Emulsion Co., Terre Haute, Ind., and advised her to try it as a last resort.

EFFECT MARVELOUS
The effect was marvelous. In an interview granted to a Times-Tribune reporter last evening, pursuant to an inquiry from the McKesson Emulsion Co., whom Mrs. McCartney had sent a letter of appreciation, she said that the three days after taking the remedy, her boy was able to walk with her aid. After taking ten bottles, he was wholly restored to health. In substantiation of her story the reporter was shown a snap shot of Paul after he had used the emulsion three days—he was a mere bag of bones, as the saying goes, a pitiful figure with skin drawn tight over the bones.

Then in contrast, the mother called to her son who was engaged in strenuous play on the street, and in came a lad, vibrant with health and cheeks glowing like the rose. All this in spite of the ultimatum by a physician, "that he might as well take so much lead," according to the mother's statement.

Mrs. McCartney sent her letter to the company in the hope that other mothers could learn of this remedy, what it did for her son, and perhaps receive from it the same invaluable boon. She called the attention of the reporter to a bottle of the emulsion which ever has the place of honor on the buffet, and to which she says, "I am indebted for my son's life."

Mrs. McCartney is a well known machine, but in the family shops.

Professor Coons, gave the address of the afternoon and spoke on "Utilizing Electricity." He explained to the club how electricity is measured, the rate of lighting a house and took up cooking by electricity with its many advantages to the busy housekeeper. There was no time to discuss the motor appliances. Mrs. E. E. Hopkins read a paper on Rabbit Trapping in Australia. Rabbits are a real menace to the country, she said. They are trapped and killed by the thousands and shipped away to be used as food, to make felt hats, and beautiful fur pieces.

BRAZILIAN PRESS ATTACKS AMERICA

Editorials Blame "Expansionist Policy" of U. S. For Drop On Exchange Rate—Ignore Real Cause.

Rio de Janeiro.—Considerable anti-United States sentiment in Brazil is resulting from newspaper comment on the unfavorable situation growing out of the high rate of exchange for the American dollar in the last five months. During this period the value of the Brazilian milreis has dropped from 25 to 10 1/2 cents to the dollar, its lowest mark in more than 20 years.

Almost daily one or more newspapers editorially charge United States banks and trusts with being responsible for the local situation, blaming much of it on the high rate of exchange for the American dollar in the last five months. During this period the value of the Brazilian milreis has dropped from 25 to 10 1/2 cents to the dollar, its lowest mark in more than 20 years.

United States banks operating in Brazil are charged in these editorials with exchange speculation, while North American trusts are declared to be attempting a monopoly on Brazilian products, particularly rubber, which some of the more violent editorials attribute to the "expansionist policy" of the United States government.

President Pessoa is charged by the anti-government section of the press with unbridled favoritism United States capital and commercial interests. These attacks on the president have been multiplied during the last week since he has ordered registration of a concession to a North American iron and steel syndicate headed by Percival Farquhar to operate mines and smelters in Brazil. This concession had previously been refused registration by the Tribunal of Minas, which passes judgment on governmental contracts and concessions.

Thursday's Games.
First Main M. E. vs. Junior League.
Second Presbyterian vs. Maple Avenue C. U.

Last night the First Methodist and St. Paul M. E. teams settled their dispute as to which team should, in the time being, lead the Senior League. The First Methodist team was put into second place with a "process and display" by the St. Paul team. The First Methodist has held their opponents down to a lead of only six points in the first half but during the second half the team went triple and the Neal Avenue bunch had little trouble in running up a good score lead on the 14 minutes and 15 seconds of a good game for the losing team. G. Harlow of the league leaders, marked up five field goals for his team.

The Business College after having lost its first three games is having a decided come-back and in Monday night's second game took over the First Presbyterian team to the tune of 29 to 5. Simms and Evans did most of the damage to the losing team. Simms scored four field goals, all from different angles, and Evans went wild in the second half and ran his total number of field goals up to seven which, so far, is the individual record for one game.

Neglect Kills Kidney Sufferers

Statistics show alarming increase in deaths from kidney diseases. Neglect is largely the cause. Pain in the back and loins, puffiness under the eyes and other symptoms often are unheeded. The malady tightens its grip and serious complications develop.

MYERS LASTS FULL 10 ROUNDS

Going Was Bad In Early Part of Bout But He Gains Strength and Finishes.

Johnny Gardner easily gained the decision over Pete Myers of Akron in the main bout at the fight at Hickey Hall last night before a fair sized crowd. Although it looked like a knockout fight in the second round when Myers went down, he developed strength later and lasted through the fight which went ten rounds.

It was evident early in the fight that Gardner was greatly superior to Myers, having it all over him in ability to cover and to hit. In the second round Gardner opened a cut over Myers eye and in the third a cut over the other one, thus partly blinding Myers through the rest of the bout.

Myers work improved in the fourth when he started to head and land more blows. In the fifth he was successful in placing his punches and the round goes to him.

He started in strong again in the sixth but Gardner headed him off and gave him the worst of it as he did in all of the remaining rounds. Myers was evidently an inexperienced boxer but his work pleased the fans and on the whole the bout was a success.

In the semi final Billy Gibbs outpointed Chick Rogers of Akron in a four round bout. Gibbs proved to be a clever boxer, leading the fight most of the time. Rogers was a good defensive fighter and neither gave the other an opportunity to get set for a blow. Gibbs obtained blood early in the second round by straight lefts to Rogers nose, a fact which bothered Chick considerably.

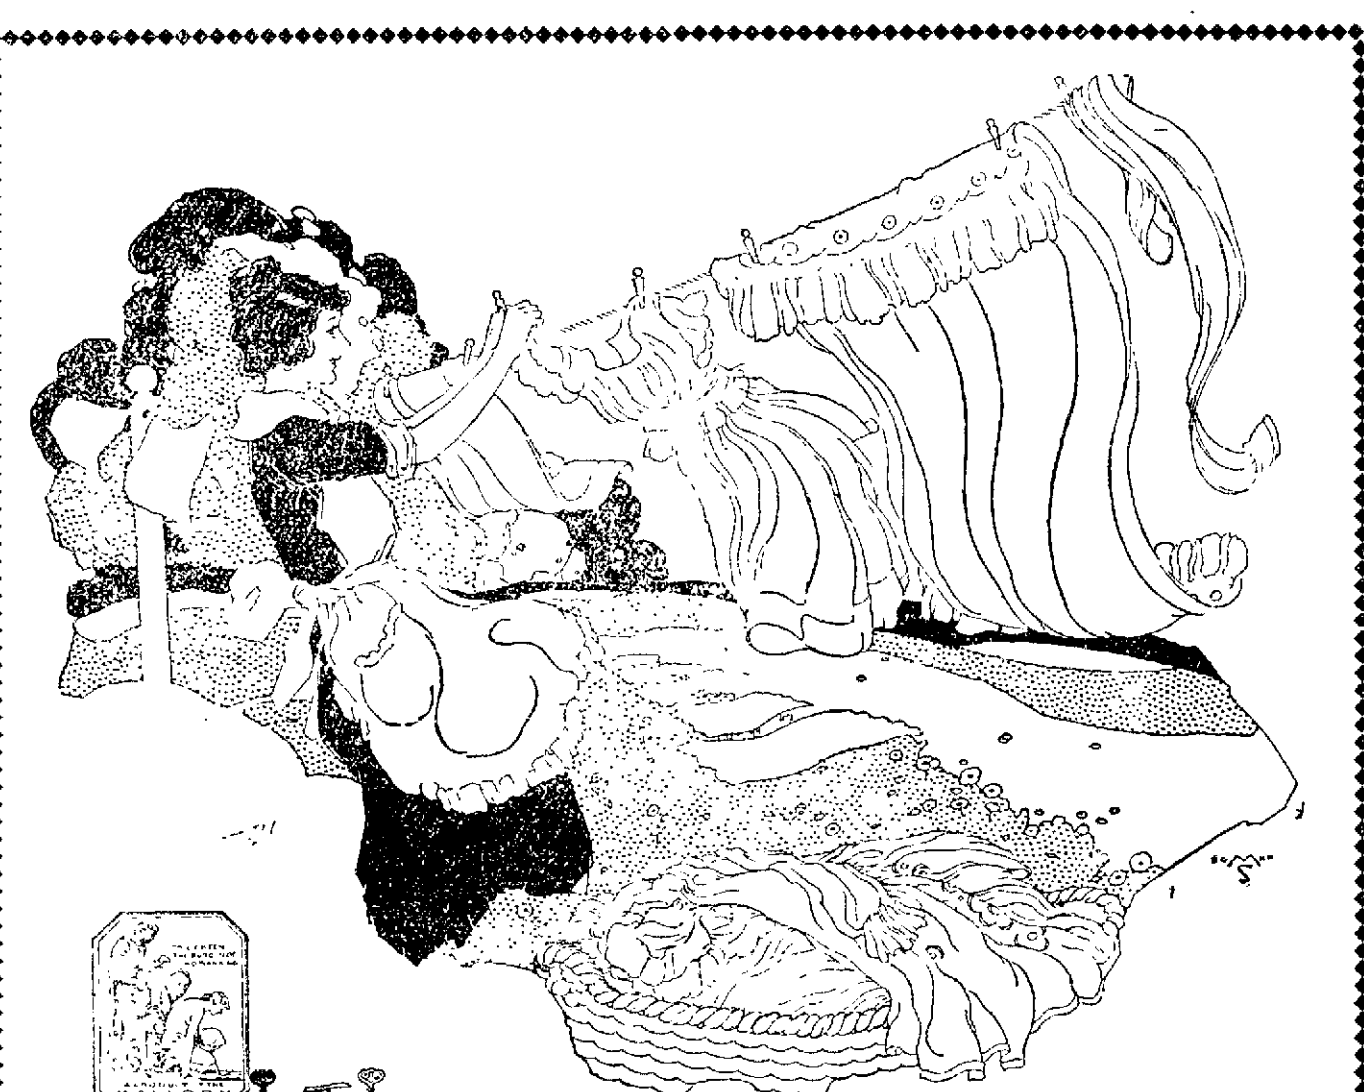

In each of the four bouts last night one of the fighters received a bloody nose.

Chick McLoughlin and Pebble Ford at 116 pounds fought to a draw in a four round preliminary last night. McLoughlin led the fighting in the first two rounds but weakened and Ford secured the last two.

Charles Miller routed Larry Cash in all four rounds of their preliminary bout. Larry being unable to stop Miller's attacks. Cash took the count of nine many times during the bout, his exhibition not pleasing the fans very much.

ORCHARD PRUNING AND FERTILIZING

Pruning is the first step to be taken in orchard rejuvenation, according to the department of horticulture at the Ohio Experiment Station.

Removing dead wood, heading in tops and thinning out the branches makes it

possible then to apply the dormant spray effectively early in the spring. This spray consists of lime-sulphur and is applied to control San Jose scale. It is as necessary to fertilize the orchard as any other farm crop. 9 useful application is 5 to 8 pounds of acid phosphate per tree, spread over all the land in fall or spring so as to induce

a growth of clover between the trees, followed by 3 to 5 pounds of nitrate of soda of ammonia, spread under the trees in the spring as far as the branches extend. Complete information on pruning, spraying and fertilizing of orchards may be secured on request to the Ohio Experiment Station, Wooster, Ohio.
